

SHAKTI SOLAR MODULE MOUNTING STRUCTURE

SHAKTI SOLAR MODULE MOUNTING STRUCTURE

○ INTRODUCTION

Shakti offers complete solution from design to installation of various type of solar module mounting structures

○ APPLICATION

1. Most suitable for roof with less and premium space.
2. Suitable for agriculture applications.
3. For solar water pumping application.
4. Customize carport structures for car parking.
5. Suitable for industrial applications.
6. Suitable for power plant application.

○ FEATURE

1. Design to withstand wind speed upto 150 kmph.
2. Hot dip galvanized with minimum thickness of 80 microns.
3. Provided with seasonal and day tracking facilities .
4. Design to enhance energy generation upto 30%
5. Easy installation, stable and more reliable design.
6. Easy to handle and transport.
7. Excellent corrosion resistance property.
8. Design to save space and cost.
9. Shallow & Pile Foundation available.
10. No power tool required for assembly
11. Structure is made of rectangular pipe, square pipe, circular pipe, and 'Z' Purlin for more strength.
12. No welding required for installation.
13. Galvanised fastener.
14. Unique Non-Penetrating structure design make the installation drilling free for rooftop structure.

○ PERFORMANCE DATA

SAP CODE	MODEL	MODULE RANGE	NO. OF PANEL	POWER CAPACITY
9000030599	SSMT-9PL-STRUCTURE	500-550 W	9	4500-4950 W
9000030643	SSMT-6PL-STRUCTURE	500-550 W	6	3000-3300 W
9000031233	SSMT-4PL-STRUCTURE	500-550 W	4	2000-2200 W
9000029805	SSMT-10PLATE AUTO STRUCTURE	320-345 W	10	3200-3450 W
9000028054	SOLAR STR.ROOF-TOP 1PLATE (LANDSCAPE)	320-345 W	1	320-345 W

* Feature may vary as per model.
